ORIGIN

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
Review Date: 2008

1. Harbor authorities in the Soviet zone of Germany have complained to the SMA that the present capacity of the harbor facilities does not permit the proper handling of the volume of shipments involved. The SMA, planning to enlarge the harbor installations, has requested the Central Administrations to submit exact figures about the volume of goods handled in the different harbors.

2. The following figures were submitted by the department for International Trade:

Stralsund, monthly tonnage	40,000
Wismar " "	100,000
Rostock " "	80,000
Anklam " "	10,000
Wolgast " "	8,000
Greifswald " "	15,000

3. The main inland-water ports are the following:

Koenigswusterhausen, monthly tonnage handled	160,000
Fuerstenberg/Cder " "	40,000
Riesa " "	70,000
Dresden " "	80,000

It is planned to enlarge the Fuerstenberg installations to a monthly capacity of 80,000 tons. Up to now, only half of the harbor facilities in Dresden have been utilized.
